

# INSIDE NOAH'S ARK . . . . Stay Home and Save Lives!

- We have seen lots of pictures of the outside but what do you think it was like inside?
- Hot? Dark? Noisy? Smelly?
- How did all the creatures live together?
- What were Mr. & Mrs Noah's rooms like?

Take a shoebox or any other cardboard box and design the inside using whatever materials you have, maybe scraps of wallpaper? or Lego bricks, wooden bricks, dolls house things? Use small animals, zoo, farm, soft, make your own or use these finger puppet templates.

- They all stayed on the Ark until it was safe after the great flood.

- Design your own finger puppets too!
- Tell the story as a play.
