

AN 'ECO' ADVENT

We are an Eco Church, so we should try to be as creative as we can using recycled things and caring for God's Creation

- Make recycled paper chains from left over festive paper
- Make gift tags from left over Christmas cards
- Forage for foliage, pine cones and berries to decorate your home. (Do this with a grown up.)
- Remember to feed the birds, who have less to eat in winter. Make bird feeders...
Push sunflower seeds into apples and hang up
String cereal hoops onto pipe cleaners and hang
- Make festive robins to hang on your tree or make a string of them....
Use the template to cut out the shapes from paper or thin card, maybe brown with a red breast or multi coloured from scrap card and paper. Punch a hole in the top for some thread or ribbon. Attach the feet, beak & red breast.
- Remember to recycle packaging over Christmas or reuse it for craft projects. Save fancy boxes, paper, sweet wrappers for art projects.
